- **Discharge non-domestic strength wastewater into the City sewer (Commercial or Industrial):**
- **Discharge stormwater and other unpolluted drainage to storm sewers (Stormwater):**

4.) Representations, Covenants and Agreements of Applicant for New Service

Applicant, in consideration of the issuance of the permit to discharge as described above and the permit to excavate do(es) hereby agree(s) as follows:

1. To perform faithfully and with due care and skill the work of excavating and making the connection to the public sewer and the installation of a building sewer, including all pumps and appliances associated therewith that are compatible with the public sewer, and in accordance with all applicable codes, standards and regulations.
2. Owner agrees that no other person or property, other than Owner shall be serviced by the building sewer serving Owner's property without the prior written consent of the City. No additional hookups whatsoever shall be allowed to be

made to the building sewer serving Owner's property without the prior written consent of the City.

3. To pay all costs and expenses incident to the installation of a building sewer, including all pumps and appliances necessary to for the proper functioning of the building sewer so that it is compatible with the public sewer.

4. To indemnify and hold the City of Hermantown harmless from any loss or damage that may be directly or indirectly occasioned by the installation of the building sewer.

5. To comply with the requirements of the applicable ordinances, standards and regulations of the City of Hermantown and other governmental bodies with respect to the construction, installation, connection and use of the building sewer and public sewer.

6. To notify the City Superintendent when the building sewer is ready for inspection and connection to the public sewer and allow the City Superintendent to inspect and approve such installation, including the installation within the building to be served by such building sewer, and the installation of any pump or other appliance, before a connection is made to the public sewer. Owner agrees that if an E-1 System is part of a building sewer that the E-1 System shall be installed by a Certified E-1 contractor and maintained in accordance with all applicable building, plumbing and other codes and regulations and in accordance with the policies, requirements, and procedures of the City. Upon the installation of an E-1 System provided by the City as part of a City sewer improvement project in a building sewer, the Owner of the property shall become the owner of such E-1 System. If the installation passes the City's inspection, Owner will be provided with warranty information with respect to an E-1 System that is provided to Owner as part of a City sewer improvement project.
